This two-bedroom, one bath home is quite charming. The living room is open to the kitchen, which has plenty of cabinets and tile countertops to match the flooring. The bedrooms are divided by the bathroom, which has been recently renovated. There is a 2-car detached garage and entry to it is from the alley. The large yard is a bonus and a gate has been added for another entry to the back yard. This home is a must see and will sell fast.
