This older home, probably built in the early 1900's, is such a charming residence. With 3 bedrooms and 2 bathrooms, the home is the perfect size for any buyer. Wood trim throughout is a nice touch, as well as the high ceilings. The kitchen and living area are open and a fireplace is nestled in the corner. An all white kitchen has plenty of cabinet space and the built -in seating by all of the den windows overlooks the pool and well-manicured back yard. The upstairs attic is decked and can be transformed into another bedroom or game room. Beautiful landscaping and mature trees are an added bonus to this home. This home is a must see and oozes with charm.
